Look AT INSIDE COVER FOR THE MANY SERVICES WE OFFER

Our Various Departments are at Your Disposal

SEED DEPARTMENT—Grass, Flower, Vegetable Seeds. Spring and Fall Bulbs. Insecticides, Fertilizers, and Sundries.

This particular branch of our organization is equipped to supply all your garden needs. No effort is spared in selecting quality stock from the best sources of supply.

Located at 478 Main Street, New Rochelle, N. Y.
Telephone New Rochelle 8700.

●
FLOWER DEPARTMENT—This department is well-known as one of the leading Florists in this section of the country. As members of the F. T. D. (Florists Telegraph Delivery Association) we receive and send flower orders to all parts of the world. The stock used is always fresh as it is cut daily in our own Greenhouses. Our art in decoration has made us quite as popular as our reasonable prices. We will gladly furnish estimates for wedding and party decorations.

Located at 478 Main Street, New Rochelle, N. Y.
Telephone New Rochelle 8700.

●
AQUATIC DEPARTMENT—Here we carry a complete line of Pool Fish, Hardy and Tropical Lilies, Marsh Plants, and all other materials required for outdoor pools. We also have a complete line of Tropical Fish and accessories.

Located at 478 Main Street, New Rochelle, N. Y.
Telephone New Rochelle 8700.

●
GREENHOUSE DEPARTMENT—All kinds of flowers and plants are grown here in huge quantities. There is something in bloom throughout the entire year. In the Spring we have one of the largest selections of Annual Bedding Plants, including the most recent novelties. Your visit is always welcome.

Located on the Boston Post Road, Larchmont, N. Y.
Telephone Larchmont 1500.

●
PERENNIAL DEPARTMENT—We pride ourselves on the fact that we have an unusual selection of the common and the more rare types of perennial plants, roses, vines, etc. You are invited to visit this section of our Nursery at any time. A complete list of our stock will be sent to you upon request.

Located on the Boston Post Road, Larchmont, N. Y.

Beautiful Permanent Lawns

In producing a beautiful lawn it pays to use only the best and purest seed. Actually it costs less, aside from the fact that it represents the shortest way to satisfaction. In our experience of more than 30 years of turf building we have found this absolutely true. Therefore, it is our endeavor to serve you as always, only with the purest seed of a high germinating quality. By using our carefully tested mixtures you find that lawn building becomes much less of a gamble. Should you have any lawn problems we suggest that you come to us so that we can assist you in solving them.

BASSI'S BEST

Compounded to produce a thick, velvety lawn throughout the season. It contains a large percentage of Creeping Bent, and various other choice and most permanent grasses, adapted for this location; the finest procurable. 1 lb. will sow 200 square feet. Lb. 65c, 5 lbs. \$3.00, 10 lbs. \$5.75, 25 lbs. \$14.00, 100 lbs. \$52.00.

BASSI'S SPECIAL

This mixture is composed of recleaned grasses, correctly blended and is best suited for large areas, and rebuilding of lawns. Lb. 45c, 5 lbs. \$2.15, 10 lbs. \$4.00, 25 lbs. \$9.75, 100 lbs. \$38.00.

BASSI'S GREENVIEW

This formula, though not composed of the choicest varieties, will quickly produce a good turf. We recommend this grade of grass seed where the cost must be given chief consideration. 1 lb. will sow 200 square feet. Lb. 35c, 5 lbs. \$1.60, 10 lbs. \$3.00, 25 lbs. \$7.00, 100 lbs. \$26.00.

BASSI'S SHADY LAWN

Has been especially compounded to give a thick and velvety turf in shaded places where the usual mixtures do not thrive. This mixture is prepared from the highest and most costly seeds which are especially adapted for growing in shade. Lb. 70c, 5 lbs. \$3.25, 10 lbs. \$6.25, 25 lbs. \$15.50, 100 lbs. \$60.00.

APPLY AGRICO, and almost before you know it, your lawn is transformed into a thick, closely-woven fabric of rich, healthy, dark-green growth . . . Apply Agrico, also, to shrubs and trees, as these require the same plant-food balance as lawns . . . This truly complete, thoroughly balanced plant food makes an amazing difference. Try some Agrico this season — and see for yourself.

AGRICO FOR LAWNS, TREES & SHRUBS

specialy formulated for lawns, trees and shrubs. Provides ALL the needed plant foods, with just the right proportions of nitrogen, phosphorus and potash . . . stimulating quick growth in early spring . . . providing slowly available plant food all season long.

BETTER LAWNS AND GARDENS

FIRST came the all-purpose fertilizers . . . "amateur" fertilizers, you might say, because one plant-food formula was supposed to do an equally good job both on the lawn and in the garden . . . when every professional grower knows that for best results a fertilizer has to be formulated for a specific purpose.

That is why The American Agricultural Chemical Company—one of the world's largest and oldest fertilizer producers—has introduced with great success two different plant-food formulas:

AGRICO FOR LAWNS, TREES & SHRUBS AGRICO FOR GARDENS

Agrico for Lawns is specially formulated to produce a thick, rich growth of velvety, dark-green lawn-grass. With just the right balance of ALL the plant foods needed for this one very specific purpose. Backed by a generation of experience in producing fertilizers for the nation's top-notch golf courses.

Agrico for Gardens, on the other hand, is specially formulated to stimulate deep, vigorous root growth, stiff, sturdy stalks, and a generous production of firm, well-formed flowers and vegetables. In flowers, Agrico brings out full beauty and richness of color . . . in vegetables, Agrico develops full-flavored produce, rich in health-giving mineral nutrients. Try some Agrico this year — see the difference it makes.

AGRICO IS CLEAN, ODORLESS
SAFE, EASY TO USE. COMPLETE
DIRECTIONS, FULLY ILLUSTRATED, IN EVERY PACKAGE

FLOWER AND VEGETABLE GARDENS need a different fertilizer than lawns. Because grass is all roots and green growth, while flowers and vegetables also have to produce abundance of bloom, or large, well-nourished vegetables. That is why Agrico for Gardens is specially formulated to do this one job, better. Try some Agrico—see the difference it makes.

AGRICO FOR GARDENS

specialy formulated for flowers and vegetables. Contains ALL the needed plant foods, with just the right proportions of nitrogen, phosphorus and potash to stimulate deep root-growth, stiff, upstanding stalks, with an abundance of colorful flowers and delicious vegetables.

Professional **FERTILIZER**

**Agrico Comes in TWO Grades, Specially
Formulated for the Home-Gardener**

**One Agrico for Lawns...Another Agrico for
Flower and Vegetable Gardens**

NO GOLF-COURSE greenkeeper would think of using a flower-garden fertilizer for his greens and fairways. No more than a professional greenhouseman would use a lawn fertilizer to grow flowers! For the good and sufficient reason that it takes a *different* combination of plant foods to do each job well. That explains why Agrico produces such truly remarkable results.

Because, instead of a single all-purpose plant-food formula, Agrico comes in **TWO** grades, *each grade specially formulated to do its own job and do it better.* It's the difference between a man-of-all-work and a specialist — the difference between an amateur and a professional. And, believe us, that difference is mighty important!
